Too good to be just one game I really hope that it gets a sequel, because I dont know if the ending I get it will stay as a cliffhanger or I another choises to get a different ending.ITS AN AMAZING STORY. I absolutely love this game! The narrative is so imerrisive and compelling. I really feel for the characters even the ones you cant romance. Ive seen other reviews complaining about lack of choice and that makes no sense to me. Its an interactive novel not an open world game. Even open world games have parts that have to be done to move on. You really get to see your choices having an impact on your game. If you dont have a high enough skill you cant perform a move during a race. A simple choice of right or left might mean the difference in first or third place. Ive played the game multiple times already trying out new choice combinations.. This isn't the greatest interactive fiction I have ever read, feel free to skip to the end to avoid my rambling. There was a ton of exposition, world building and background info that you had to read through that slowed down the story and I got bored reading through, on the plus size it did remind me of being in school (lol). I find with fantasy worlds like this you kind of need all that background information because it's not our world but it broke immersion for me sometimes. I would have liked more time exploring the bond with your Dragon and more time with each of the characters, especially for just friend stuff. I found with one of the character if you don't side with them from the start they treat you like your this evil untrustworthy person later on even if you haven't been playing that way, which was weird for me. There are also still some bugs. The only one I found were in Dragon 101 the notes you can collect didn't show up so keep that in mind, there is a test. I liked the different personality on the Dragons. I think my Favourite is Blue, but they are all pretty likeable. I also enjoyed the character in the story. I think that they were cliché for this genre but I don't care about Cliches if they are likeable and I liked all of them, even the rival to an extent. I also enjoyed the end tournament section. I chose Puzzle key and I have a really good time. Though as a side note this is the only time in one of these games I wished for a save function in these games. I know that none of them have it but damn. I also enjoyed the MC. Again a bit of a cliché but I found them likeable and that they had enough customizability to keep me interested through multiple play throughs. The last thing is the overall story. It has a very familiar star wars with dragon feel for me. It's not a replication but there were some similar story elements. It also reminded me of Eragon to an extent. That being said, I love both of those things so it works for me All in all, I enjoyed myself, which is the most important thing for me when I play these games. I don't think it's perfect and there are other choice of games that are probably better written like the Wayhaven chronicles or Fallen Hero: Rebirth. This one was still pretty fun. I really enjoy Dragon Riders, I think that bond is really interesting and I will likely read this again, I have it both on my phone and on Steam (I tend to play on my phone more often) I am excited for part two, the epilogue left on a pretty decent cliffhanger and I look forward to the rest of the series.. This isn't the greatest interactive fiction I have ever read, feel free to skip to the end to avoid my rambling. There was a ton of exposition, world building and background info that you had to read through that slowed down the story and I got bored reading through, on the plus size it did remind me of being in school (lol). I had enjoyed and loved the game but sadly it was a bit short. I could honestly see this becoming a full game with hours of fun and many choices and trails past the point where it did end, it hurt to see that it landed on an actual

---

cliff hanger since ive gotten extermly into it, but overall it was a fun game while it lasted. Only thing i'd change about this game is making it a lot longer so everyone could see the battle and having to race to save your friends and/or loved ones.. This isn't the greatest interactive fiction I have ever read, feel free to skip to the end to avoid my rambling. There was a ton of exposition, world building and background info that you had to read through that slowed down the story and I got bored reading through, on the plus size it did remind me of being in school (lol). I find with fantasy worlds like this you kind of need all that background information because it's not our world but it broke immersion for me sometimes. I would have liked more time exploring the bond with your Dragon and more time with each of the characters, especially for just friend stuff. I found with one of the character if you don't side with them from the start they treat you like your this evil untrustworthy person later on even if you haven't been playing that way, which was weird for me. A fun choose your own adventure book! This basically a Choose your own adventure. You've got to be a reader to enjoy it, that being said if you are a reader then you will most certainly enjoy this game! All of the characters are well thought out, as is the fantasy world you reside in. There's plenty of replay value here, I still haven't finished but I've been enjoying myself. There's even romance opportunities, a definite plus. You can play as a nice guy or an , all up to you. All in all I definitely recommend this game for those of you who like to read.. Too good to be just one game I really hope that it gets a sequel, because I dont know if the ending I get it will stay as a cliffhanger or I another choises to get a different ending.ITS AN AMAZING STORY.
